

Grow Container Systems - GCS - Fodder

With the **Grow Container Systems Fodder** you:

-  Produce 100 - 1,500 kg fresh fodder per day per container
-  Have high yields in a very small area
-  Reduce the total daily feed costs
-  Have high Dutch quality with long service life
-  Increase your independence by growing food for your animals without the need for agricultural land

Our GCS Fodder model

-  Water consumption reduction 90% compared to field irrigation
-  Decrease up to 20% phosphate and nitrogen in the manure
-  Decrease ammonia content in the stable
-  Increase nutritional value in the animal feed
-  High digestibility
-  Vitamins & mineral saturation
-  Phytate reduction for pH normalization
-  Increase enzymatic activity
-  Pesticide and chemical free
-  Year round (365 days) production
-  Plug & Play
